

to the public, and only to a few who have a "pet mud hole" to fix it. It is a waste of money to have the government pay for plows and teams every time.

I want the court to foot up the record and see if they have paid out \$304,000.00 in 20 years for roads (and, and with the same system, will pay out more in the next 20 years).

I want them to go to the records and find out how the county has paid for the same thing. The same conditions have been (for some years) from \$15,000.00 to \$15,000.00 per annum. All of which work the March winds blow away. Taxes and tolls, dam the brook—stop here!

Look at this squarely in a business way. Let somebody get mad if you do not pay your taxes and let them pay his taxes with fox traps and gin-sing.

Look at the move as a progressive one and as an economic measure. It will save the county money. It can make every important road in the county, and buy out those already paid for. Issue bonds for payment and let the county pay out even half what they would have to pay.

I want the court to know those who pay the most tax under the present system and who haul most of the produce to the city. The tolls on the toll—they are being taxed doubly for roads. It is burdensome and unjust and unequal.

Let me show what other counties are doing. Let me show the tolls exacted from various county papers:

There is little need of a farmer raising produce if he cannot get it to market. Good roads give him the means to get his produce to the city for his free trade, and compel him to barter with the country store or pay his profit to the turnpike companies. I am in favor with the tollgate.

—The Green County.

The question of free pikes is being agitated all over the State of Kentucky, and we dislike to see Pendleton County take the matter into its own hands. "What is good for the goose is sauce for the gander," and wherever you find a system of free tolls in use, you will find lands more valuable.

county produce is paid out by and is spent largely in other markets. It is a waste of money to have the county farmer to build up his own county town. They will do it to when they have equal chances and it costs them nothing.

I have just delivered 2,000 bushels of wheat to Hopkinsville on which I paid \$12 toll, when I could have gotten the same figures elsewhere. But I don't go to my town when I can get there.

Your city is losing business every day and must feel it. Any rate let the city have the bridge and the tolls to go with. This double tax on your farmers, the brawn and sinews of the county. We must have relief. We look to the county court. Let's hear from you soon.

Albenham Whitehouse.

Ever since aluminum became too enough in price to make its use for ordinary articles possible, its employment has been increasing rapidly. Many experiments have been tried, but with indifferent success, until very highly tempered steel in small parts has been found to be the best material. This furnished wearing parts and increased its durability wonderfully. It is equally service over an exceedingly rough and trying road, and it is lighter than any other material covering a distance of 300 miles. This test was most thorough and proved that steel armored shoes suited to all the needs of the cavalry service.

Artificial Whalbone.

Manufacturers of artificial whalbone tried in vain to find some substitute for genuine whalbone, but this has at last without success. A novelty in the way of strips of leather treated with chemicals and pressed under great pressure. This material will grow for the purpose tolerably well, provided moisture reaches it. But when used in the shoe, it absorbs the perspiration and the warmth of the foot, and it warps these bones and render them not only useless but unpleasant, as they twist and destroy the symmetry of the foot.

A branch of St. Columba's Irish nunnery, it held in the month past a death by hanging.

A son of Collier or Blackwell offered to fight Editor Charlie East, of Morganfield, the other day over the Union county tax quibble. If young Blackwell is spoiling for a fight he could doubtless be accommodated by going to the real seat of war at Sturgis.

Jac. D. Rockefeller, the richest man in America, is worth \$145,000,000 is 55 years old and still does a day's work in his offices every day in the week. In the latter particular he strongly resembles the editor of this paper in his personal habits—but we are unable to detect any further resemblance.

Commenting on the recent marriage of Rosa W. Colwell, of Hopkinsville, Ky., to Miss Amy C. Carmichael, of Richmond, Iowa, the Brighton News says: The groom is a native of Hopkinsville, Ky., is a near relative of the late Governor and by marital relation closely allied to Geo. Taylor, being thus in direct lineage with the state's wealth and aristocracy of the century. The bride is one of the fairest of proud Iowa's queens. Thus by love's decree, whose mighty power is more powerful than that of prince, king or potentate, the north and south are united in a holy union of hearts and hands. God grant His richest blessing—happiness complete.

Rev. John O. Rust, who has loaned his resignation as pastor of the Baptist church to accept a call to his church at Nashville, has, during his stay in this city, made friends among all classes of people. As a minister he is not only a man of great comfort and console, and many a man old and young, who had wandered from the straight and narrow path, has been reclaimed through the goodness of this truly good man. Besides this he is a man of broad ideas and opinions, and though he preaches with fervor the Gospel as he believes it to be, still his chief aim is to do such that anyone profits by hearing his discourses. We regret to lose him, for besides being an able preacher he is an excellent citizen—progressive and sympathetic. Burdette Record.

Mrs. J. R. D. Buey, whose advertisement appeared on another page, is an artist of decided ability, having acquired her skill under the best teachers in Chicago, and perfected it in teaching, as evidenced by her fine recommendations from the Central School Academy of St. Louis, Miss Mary McCallister, former principal of Henderson Female Seminary, and others she has taught in Henderson, Ky., and refers to such persons as Messrs. J. A. Barrett, and David Clark tobaccoists; Mr. S. C. Dalton, Pres. Henderson National Bank, and Commonwealth's Attorney J. H. Powell. She has lately returned from Cincinnati where she had been to look up the latest ideas in decorating and to get a killer for firing the chins. This latter will very much lessen the expense of chins as decorating. This is a golden opportunity for those wishing to beautify their homes with artistic ornaments and decorations.

On next Saturday evening, Feb. 9, at Holland's, Opera house, all Clay County, one of the best character actors before the public, will be seen in his greatest impersonation, "Baron Munchausen" in "The New Dominion." Mr. Clement is known in many parts of the country for his artistic portrayal of "Hamlet," "Antony and Cleopatra," "The New Dominion," and in "Erewhon" and other plays. Two seasons ago he won the enthusiastic praise of the press and public for his magnificent productions of these plays. "The New Dominion" is a high-class comedy of southern life and Mr. Clement's acting as the "Baron" is so natural and impressive and so humorous as to keep him in the eye of the legitimate comedy actor of our stage. Mr. Clement is under the management of J. H. Powell, which is a guarantee of the excellence of his company and the completeness of the production.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the cause of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CENEY & CO., Toledo, O. "It is with pleasure that I give you the details of my little boy's sickness and his return to health by the use of Hood's Sarsaparilla. He was taken down with

Fever and a Bad Cough.

Following this a sore came on his right side between the two lower ribs. In a short time another broke on the left side. He would take spells of sore mouth and when we had succeeded in overcoming this we would find with attacks of high fever and expect bloody looking stools. After each attack he would come from his ears. After each attack he be-

came worse and all treatment failed to give him relief until I began to use Hood's Sarsaparilla. After she had used it a bottle he could see that she was better. We continued until she had taken three bottles. Now she looks like her mother.

He charged Mr. Johnson and Suter with a plot of corruption in awarding an asylum contract. Smith and his informant, W. P. George, have been held under bond.

Two women were knocked down by horse-drawn carriages in the street in Louisville. One of them, Miss Anna Vasey, aged 50, was relieved of \$1,000 she wore in a belt around her waist under her clothes. The thieves cut open her clothes and brutally beat her into unconsciousness. No arrests have been made.

Annie Kroninger, a 10-year old school girl, caught her dress on fire from the stove, and was fatally burned in the public school at Newport. The frightened child escaped from the room and continued to run until she fell unconscious. Her was the sixth death from the same cause in less than a week in Newport.

There is a good deal of complaint of the imperfect heating in some of the churches. This is due to the fact that the furnaces are not properly looked after. There is no excuse for such negligence on the part of janitors and it can only result in keeping people away from church in cold weather. Few people are willing to risk their health by shivering in cold rooms to hear even the best of sermons.

Shooting Affray at Cerulean. A few days ago J. D. Moore and Bud Smith engaged in a row at Cerulean Springs. Moore was armed, and drawing his gun shot Smith, the ball taking effect in the chest, and making a slight wound. Lee Banks, col., was also a party to the row, it seems, and was shot at several times, but escaped without a scratch. Moore was arrested and gave a \$100 bond for his appearance at the examining trial.

Fire at Princeton.

A fire at Princeton early yesterday morning burned the Backer store and S. Kaufman's store on Main street. Both buildings were owned by Phil Forgy. Losses not learned.

AT THE LIBRARY.

Why Overcoats, Bundles and Wreps Are Barred.

One of the most rigidly enforced rules in the Newberry library in Chicago is: "No overcoats, bundles or outside wraps can be worn or carried up stairs."

Just at the left of the entrance is a large check-room where bundles, wraps and coats can be checked. Even casual visitors must remove their overcoats and have them checked with their hats and bundles before they can examine the beautiful building.

Some persons who do not understand the reasons for this rule have become indignant when the man at the foot of the stair, quietly and firmly insists that overcoats, hats and bundles must be checked. In the Newberry library are thousands of rare and costly books. Admission is free. No one is barred from the pleasure of the greatest reference library in the country. But men and women who are professional book thieves infest libraries. It is an easy matter for them to slip a rare volume under an overcoat or wrap, stick it in a pocket or hide it inside a paper-covered bundle. Librarians know these tricks, and the librarians of the Newberry library, to guard his books, compel patrons to check their overcoats and bundles.

The young women in charge of the check room are gowned in black, as are all of the young women employed in the library. They stand in the check room in turn. Whether they are afraid of contagion or plain Chicago dirt is not in evidence, but before the young woman in charge is fairly ready for the day she slips a large easy glove on her left hand. The man lies on the table, and before she takes the proffered coat she slips her hand in the right glove and then places the coat in a cubby hole. After she has given the owner of the coat his check she returns to her table, removes the right hand glove and resumes her reading.

BROTHER JONATHAN GONE. Genuine or Typical Yankees Becoming Scarce as the Days Go.

To people who have not visited the United States it is perhaps not generally known that the typical Brother Jonathan, with his grotesque appearance and strange accent, is becoming almost as scarce as the buffalo, but such is nevertheless the case. During the last forty years a great change has taken place in the manner and appearance of the American people. To-day we find that the true, native born Americans, descended from several generations of American stock, are a mere handful among the bulk of America's population.

They are far outnumbered by people of foreign birth and parentage the Irish, German, Swedish and Italians taking the lead. The enormous influx of immigrants during the last forty years has completely changed the character of the people of the United States are now found to be mainly composed of German-Americans, Swedish-Americans, Italian-Americans, Irish-Americans, etc.

Indeed, there are parts of the United States where little or no English is spoken, where settlers of a non-English speaking race have made their homes, who read newspapers printed in their own language, and conduct their public meetings in their own tongue. These people, however, are not looked upon as foreigners, as soon as they become citizens of the United States—which is possible after a four years' residence in the country—they have all the rights and privileges of native born Americans.

There are many other national peculiarities which might be quoted as reasons for abandoning the custom of calling all Americans "Yankees," but I believe I have said enough to show what a great mistake it is and why so few citizens of the great republic really deserve the title.

A Bottomless Pit.

A wonderful natural cavern was discovered in Lafayette county, Georgia, in 1891. It has the usual complement of "rooms," "galleries," "domes," "pits," etc., but its sole title to being something out of the ordinary in the cavern line is a well like abyss in one of the rooms, which, as far as anyone knows, may once have served as the chimney of hades. It is known locally as "the bottomless pit." Stones of large size have been thrown into it with a hope that they would be heard to strike bottom after awhile, but according to reports, "there were no rocks reaching sound back to the ear by which its enormous depth could be measured."

Jerry Tibbs has accepted a position with a Nashville merchant tailoring establishment.
